

Project Design Phase-I Solution Architecture

Date	19 September 2022
Team ID	PNT2022TMID30898
Project Name	Project - xxx
Maximum Marks	4 Marks

Solution Architecture Diagram:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- ✓ Medicine Reminders serve as good way to stay on track and uphold appropriate schedule.
- ✓ It helps in decreasing medication dispensing errors and wrong dosages.
- ✓ It is used to organize your medication doses for a certain length of time.
